

STUDIO BLEU

Studio Bleu launched in 2015 with a clear focus on gentlemen's beachwear.

Inspired by the iconic photography of Slim Aarons depicting 1960's poolside utopia we aim to offer a signature style that is suitable not only for the beach but works just as well by the pool, on a yacht or for a smart lunch or sundowner.

Classic menswear tailoring elements combined with an ultra sophisticated and suave Riviera-infused look make up for the perfect holiday essential.

We love the idea of being well prepared in every situation, travel chic is no longer reserved for ladies only.

Every single item is manufactured in Germany with a clear focus on the highest possible degree of quality and design.
